

Donna Orr
Division 3 Candidate

For the past four years I have served as your LSR Treasurer and consistently worked for our membership. I am actively seeking your support for Division 3 Director and will continue to work for our membership, with issues that are of interest of our members.

As Treasurer, I worked and got the long needed 501c3 status for the LSR. Also during my tenure, each Division now gets 50% of the membership rebate from NMRA HQ to help fund each efforts to promote Model Railroad education in the LSR. These are not the only things that I worked to accomplish in the Treasurers position, but two of the accomplishments that I believe were very important to all. These are examples of my dedication to the membership of our organization.

For those of you that do not know my background, here is some information:

I received a Bachelor of Science degree in Mathematics/Natural Sciences from Indiana University of Pennsylvania. I later received my master's degree, in Mathematics/Natural Sciences, from SMU (Southern Methodist University). After graduating from college I went to work for AT&T. After 22 years, I was given a golden opportunity to leave AT&T. Taking the early out I went on to work for Oracle, worked in various startups, owned my own business, and organized and started several 501c3 organizations.

Things that I am involved in along with model trains include: rescuing animals (as a cruelty investigator), sports, wine making (small private vineyard), aquaponics, and extreme decorating for the holidays (as in large lighting displays with 50,000 + lights synchronized to music). I love Sci-fi, Star Trek, Star Wars and action films.

Finally, I am asking for your vote to be your Division director.
